

FlexCart® Products Catalog

FlexCart makes the best maintenance carts ever built!

Our focus is on building carts that are:

- 1. Extremely easy to move, compact and space efficient.**
- 2. Time saving (on average 40%) with built-in, simple organization.**
- 3. High quality and built to last.**
- 4. Beautiful in design and appearance.**

All of our carts include these important features:

- Narrow, light and very maneuverable.
- Just the right size with ample storage space.
- Quiet, durable, nonmarring, lockable wheels.
- Locks completely with provided pad locks.
- Padded drawers and fabric tool pockets provide quiet operation.
- Durable metal construction.
- Removable trash bin.
- Labeled pockets for easy tool accountability.
- Drawers include parts organization bins.
- Built-in vise clamp.
- Includes the FlexCart tool bag carried in the handle.
- Carries up to an 8' ladder.
- Large fabric pocket panel on the side provides a large additional storage area.
- Two large storage areas on the bottom designed to hold items like a shop vac and paint cans.
- Cart dimensions: 14.5" W x 37.5" L x 45" H.
- Patented with patents pending.

FC-100

PM and General Purpose Cart. This is our original, award winning, engineering cart. In addition to the above features this cart also includes a locking front tool compartment that comes complete with labeled fabric tool holders designed to carry the larger, standard tools typically needed by most engineers. The FC-100 version of this cart includes a high quality 24-volt drill with two batteries and a charger. The FC-100CS version does not include a drill. **These carts, as well as our others, have been proven to increase the productivity of the engineer using them by an average of 40%.**

Includes 24-volt drill:

FC-100WAT (With all tools)	\$3,149.00
FC-100WBT (Bag tools)	\$2,749.00
FC-100NT (No tools)	\$2,399.00

Does not include a drill:

FC-100CSWAT (All tools)	\$2,849.00
FC-100CSWBT (Bag tools)	\$2,399.00
FC-100CSNT (No tools)	\$2,049.00

FC-200

General Purpose and Trades Cart. The FC-200 includes all of the features listed above and is the same size as the FC-100. The only difference is that the front tool compartment has been removed and the drawers lengthened to fill in the space. This change also provides a larger work surface and allows the user to load the cart with their own trade specific tools. The FC-200 is a great, all-purpose cart that works extremely well for general maintenance, tradespeople and special purposes such as ice machine or other PM work. It includes heavy duty drawer slides on the 3 and 4" drawers to handle tougher applications.

FC-200WAT (With all tools) \$2,599.00

FC-200WBT (Bag tools) \$2,199.00

FC-200NT (No tools) \$1,849.00

FC-300

Painter's, Trades and Large Equipment Cart.

The FC-300 has the same structure as the FC-200 except the bottom 4 drawers have been replaced by two large locking doors creating a large cabinet. The FC-300 is available in two configurations. The FC-300PC is a Painter's cart. In this configuration the large cabinet area accommodates two 5-gallon paint buckets or up to eight 1-gallon cans. Also, the tool bag is replaced by a special storage bin. In the second configuration, the FC-300LE, (shown in the photo) the FlexCart tool bag is included. This model is used for different types of maintenance that requires the storage of larger equipment such as HVAC work or Ice machine PMs. The storage area comes with 2 shelf brackets installed allowing a shelf to be added inside the cabinet if needed. Cabinet size: 24W x 13D x 16H.

Painter's Cart:

FC-300PCWT (With tools) \$2,149.00

FC-300PCNT (No tools) \$1,749.00

HVAC, Trades and Large Equipment:

FC-300LEWBT (Bag tools) \$2,149.00

FC-300LENT (No tools) \$1,799.00

FC-400

Painter's, Trades and Large Equipment Cart. The FC-400 is very similar to the FC-300 above except the storage cabinet is smaller allowing room to add a 4" drawer just above the cabinet. The FC-400PC provides another option to professional painters who work out of one gallon cans (carries up to eight.) Just like the FC-300, this cart is also available in a design for maintenance pros, the FC-400LE. This cart is great for people who need to carry and secure larger pieces of equipment such as Carpenters, Bio-Med, locksmiths, IT and others. Additionally, this cart is also sold in a light bulb maintenance configuration called the FC-400LBC. In this model the tool bag is removed and the space inside of the handle is redesigned to carry a large box of T-12 lightbulbs. It also provides ample room for other bulbs, ballasts and lighting parts in the drawers, cabinet and fabric storage panel on the side. Cabinet size: 24W x 13D x 12H

Painter's Cart:

FC-400PCWT (With tools) \$2,199.00

FC-400PCNT (No tools) \$1,799.00

Trades and Large Equipment Cart:

FC-400LEWAT (All tools) \$2,599.00

FC-400LEWBT (Bag tools) \$2,199.00

FC-400LENT (No tools) \$1,849.00

Light Bulb Cart:

FC-400LBC (No tools) \$1,799.00

FC-30 Tool Bag

Maintenance and Engineering Tool Bag. This incredible Tool Bag is the result of a two-year partnership with three major facilities companies to develop the most functional and efficient engineering/maintenance tool bag possible. Designed and tested by facilities engineers, the FlexCart tool bag was built to deliver the exact functionality needed in a durable, compact and lightweight design. Now in service with thousands of engineering departments across North America, the FlexCart Tool Bag has proven to be a valuable tool for maintenance professionals. The bag includes 42 labeled pockets to carry and track the 84 primary tools needed by an engineer. It also includes a parts box on the bottom, a carry handle, a shoulder strap, extra storage space inside the bag and a unique, no-tip design.

FC-30TBWT (With tools) \$549.00

FC-30TBNT (No tools) \$109.00

FC-50 FlexKit™

Small, Light-weight, Carriable Maintenance Cart. The FlexKit is a suitcase sized, lightweight, quick-call engineering cart that was designed with input from hundreds of engineering professionals across North America. It was designed to deliver as many of the features of our award winning FlexCart Engineering Cart as possible while maintaining a small, easy-to-move size that can be easily carried up-stairs and loaded into a vehicle. It features a light-weight aluminum body with three specially designed, patent pending parts boxes. The FlexKit has durable 4" rubber wheels with precision bearings, a strong, light-weight extendable handle, a locking system that includes a pre-attached cable for securing the entire cart in a particular location. The top of the cart accommodates the very popular FlexCart Tool Bag. Around the outside pockets are situated that are sized to carry commonly needed larger tools. It also includes two hooks on the front for carrying a 2' step ladder and an integrated carrier for the CleanCase Invisible Plunger seen below. Dimensions: 14W x 16D x 24H.

FC-50NT (No tool bag or tools)	\$599.00
FC-50WTB (With tool bag, no tools)	\$699.00
FC-50WBWT (With tool bag and tools)	\$999.00

CleanCase Invisible Plunger™

We spent thousands of hours talking with maintenance pros about their work. One of the most common issues was the uncomfortable nature of transporting a plunger through their facility, which is generally done either in a bucket or a trash bag. In both cases it is obvious to the patient, guest, resident or tenant what the Engineer is carrying and as a result causes an uncomfortable situation for them and the Engineer. The CleanCase Invisible Plunger is completely new approach to the plunger and how it is carried and used in a facility environment. It disguises the plunger in a special case that allows it to be carried through the facility without anyone knowing what it is. It also carries the plunger in a more sanitary manner, first by covering the plunger head with a special plastic bag and then encasing it in a patent pending case. The CleanCase comes with 30 plunger head bags (which are available for purchase separately) and a storage hook. The included plunger tool is also innovatively designed to be a more professional, better functioning tool. It includes a high-quality plunging head and a unique padded, ergonomic handle that extends to a length of 25" keeping the operator back and away from the problem they are addressing.

CC-100 (CleanCase with plunger)	\$39.00
CC-100PC (CleanCase without plunger)	\$19.00
CC-100PHB120 (Plunger head bags, 120 pcs)	\$19.00

FlexCart Rough Terrain Wheel Set

FlexCart offers a rugged optional wheel set that allows our carts to be easily moved over rough terrain such as:

- Gravel.
- Asphalt.
- Grass.
- Up and over curbs.
- In and out of elevators with a large doorway crack.
- Through construction sites.
- Over power cords and air lines.

Our standard front wheel is 5" x 1.25". The upgraded rough terrain front wheel is a semi-Pneumatic 6" x 2" heavy duty caster. The standard rear wheel is 8" x 1.5". It increases to a rugged 10" x 3" wheel.

Part Number:

FC-RTWS

Price: \$259.00
